

GLOBAL LEADER

IN PROVIDING SAFETY TO GLOBAL GIANTS

Satisfied Companies

Allen Cooper has been the first choice for many verticals dealing in wide range of areas for more than a decade. These shoes have been designed especially for providing safety to people working in areas like defence services, engineering, construction, chemical industries, and many other. Allen Cooper Safety Shoes are adaptable to any style, highly durable and extremely comfortable even in very rough conditions. These shoes are manufactured after passing through stringent tests and have received certificates like ISO 9001-2008 and many International and Indian standards like ISI & CE norms. Allen Cooper has been among the top manufacturers and it has become a benchmark in providing safety shoes. A perfect gear for any harsh condition.

A Product of Superhouse Ltd.
