

Self Contained Breathing Apparatus

IS 10245(Part2)

CM/L-2809666

Demand Valve set

Turns the air into suitable pressure level for human body

Pressure gauge

Helps monitor cylinder pressure
Inbuilt warning alarm indicator

Back supporting plate

For snug fit and even distribution of weight
Light weight, Chemical, heat, flame & water resistant
Skin comfort in tough conditions

Face Mask set

Made of silicon material
Light in weight
Speech- diaphragm to communicate
2-strap head harness
Shock & impact resistant

Adjustable Waistband

With quick release buckles

Pressure reducing Valve

Reduces high pressure gas to medium pressure gas supplied for breathing.

Supplied with strong storage case

Item Code	Material of Construction	Cylinder Capacity	Cylinder Pressure	Work Life
13161	Carbon Composite	6.8 L	300 bar	45 min
13167	Steel	6.2 L	300 bar	45 min

Suggested Applications

- Firefighting
- Electricity
- Spill Management
- Shipping
- Mining
- Nuclear industry
- Petroleum
- Medical
- Light industry
