

Speciality Series

The Venus Speciality Series has been designed to provide protection in specific working environments. These respirators are light in weight and thus comfortable to wear over long durations. A unique feature is the built in carbon layer which acts as a filter against nuisance gases such as OV, AC etc.

Face side

Polyurethane nose liner
For comfortable fit

Elastic sewed outside filter area

- No leakage
- No puncture on filter

Aluminum Clip

- For Snug Fit

Cut seal edge

- No Carbon spillage

Latex free braided Textile Elastic

- Long life, skin friendly, does not deform in high temperature

Unique Adjuster Beads

- Gives snug fit yet relieves strap pressure

Outer Flame Retardant layer

- Protection from welding sparks

Activated Carbon Layer

- For absorption of Nuisance level of odour and vapour

One way exhalation vent valve

- Provides breathing comfort
- Promotes easy communication
