

Universal Series

The Venus Universal series is an effective range of products specifically designed with essential features to provide basic protection. Incorporating standard features of light weight product, soft & firm nose clip, textile elastic head bands with adjuster and an exhalation valve, contribute to the wearer comfort in tough working conditions. These products assure comfort and value to the wearer.

Color coded Fittings

- Denote the level of protection & easy identification

Elastic sewed outside filter area

- No leakage
- No puncture on filter

Aluminum Clip

- For Snug Fit

Low Profile Design

- Fitting wide range of face contours

Latex free Knitted Textile Elastic

- Long life, skin friendly, does not deform in high temperature

Unique Adjuster Beads

- Gives snug fit yet relieves strap pressure

One way Exhalation vent valve

- Provides breathing comfort
- Promotes easy communication
